TOSCA

design Enzo Berti

Karol

In Tosca è la materia a parlare e racconta il legame che da sempre Karol coltiva con l'eccellenza artigiana italiana.

In questa collezione, disegnata da Enzo Berti, alcuni materiali della nostra tradizione vengono reinterpretati in chiave contemporanea con abile maestria, e combinati in modo unico per dare vita ad una proposta inedita.

Tosca tells a story about the bond that Karol has always cultivated with Italian craftsmanship.

In this collection, designed by Enzo Berti, materials of our tradition are skilfully interpreted from a contemporary perspective and combined in a unique way to give life to an original proposal.

Artigianalità ed eccellenza del saper fare italiano

Craftsmanship and Made in Italy excellence

Dalle fucine di Murano Tosca recupera una lavorazione immutata da 1300 anni grazie all'alta artigianalità e conoscenza della materia messe in campo dai maestri vetrai nel processo di soffiaggio del vetro. Caratteristiche queste che si ritrovano anche nella produzione del cotto, materia intimamente legata all'azienda con sede nel cuore della Toscana, a Colle Val d'Elsa.

From Murano forges Tosca recovers a process that has remained unchanged for 1300 years thanks to the high craftsmanship of master glaziers and their knowledge of glass blowing process. These characteristics are also found in the production of cotto, a material that is closely linked to our company, based in Colle Val d'Elsa, in the heart of Tuscany.

Versatilità di materiali e finiture

Versatility of materials and finishes

L'essenzialità delle linee pure viene esaltata da un'anta telaio grigio antracite che consente di realizzare frontali e top in legno, gres o pietra per un effetto materico, oppure laccato o cristallo per un risultato raffinato. Diverse combinazioni di materiali, tutti proposti in molteplici finiture, per la massima personalizzazione della composizione.

The simplicity of pure lines is enhanced by an anthracite gray frame which allows front panels and tops to be made of wood, gres and stone for a natural textured effect or can be lacquered or made of glass for a sophisticated result. Different combinations of materials, all offered in several finishes, for maximum customization of the composition.

Flessibilità compositiva

Composition flexibility

Tosca si caratterizza per una estrema flessibilità compositiva.

I moduli base possono infatti essere combinati per creare soluzioni compatte o combinazioni estese che si integrano perfettamente nello spazio a disposizione senza soluzione di continuità. L'elemento panca che di volta in volta può diventare base d'appoggio, top o seduta a seconda delle esigenze, raccoglie la composizione modulare in un unicum perfettamente integrato nell'architettura circostante.

Tosca is characterized by an extreme freedom in composition.

Cabinets can in fact be combined to create compact or extended seamless solutions that blend into the available space. The bench can become a shelf, top or seat depending on your needs and it is an element that connects all parts of the modular composition for a perfectly integrated result into the surrounding architecture.

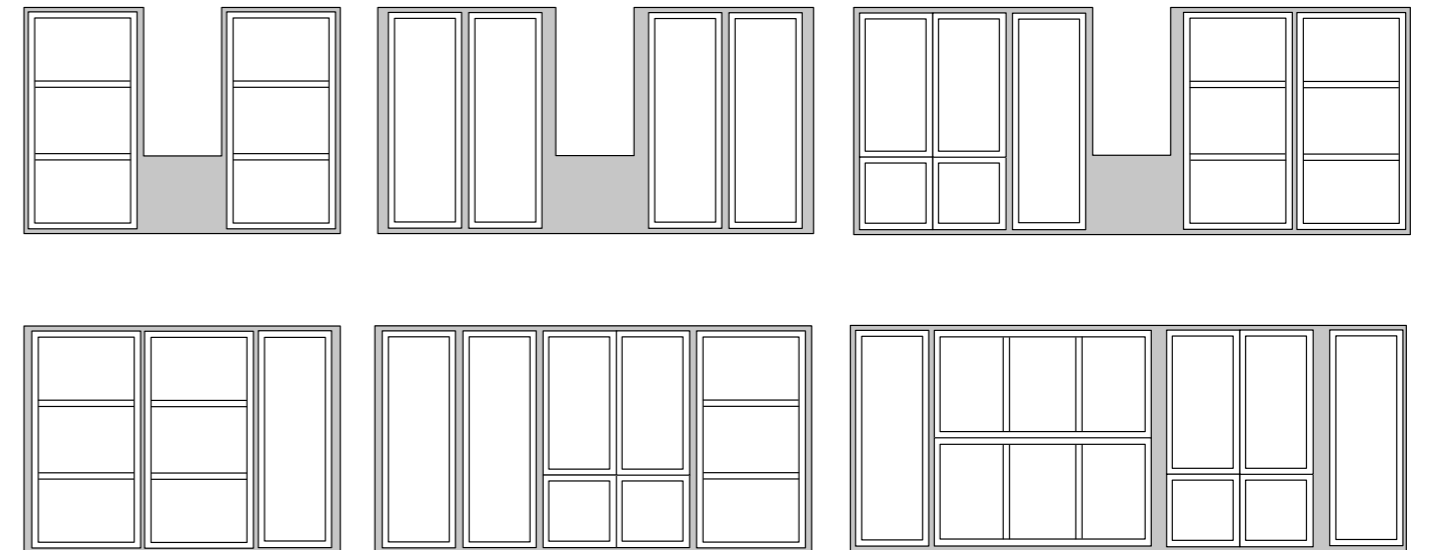

Organizzazione dello spazio

Organizing the space

La collezione si correda di diversi complementi per consentire un'organizzazione degli spazi ottimale all'interno dei cassetti e sul top, e da una colonna con profondità maggiorata, che diventa un efficace elemento contenitivo.

The collection is equipped with various accessories, to better organize the space inside the drawers and on the cabinet top, and with a column characterized by an increased depth, which becomes an efficient storage element.

KUT

Karol

La collezione Kut si caratterizza per una linea inclinata che 'spezza' forme assolute diventando un tratto di espressione squisitamente personale. Questo segno distintivo, che predomina e si estende idealmente all'infinito, dando continuità e coesione agli elementi della composizione, esalta un concetto di purezza, semplicità e minimalismo formali che rendono la collezione inseribile in qualsiasi spazio. Un leitmotiv che conferisce una sorta di leggerezza e sospensione attraverso la linearità della maniglia.

Kut Collection: the distinctive feature is an inclined line that breaks absolute shapes, thus becoming an exquisitely personal expression trait. This distinguishing feature, which ideally extends to infinity, contributes to create a sense of continuity and cohesion among the elements of the composition, bringing out a concept of purity, simplicity and minimalism which makes the collection suitable for all spaces. A leitmotiv enhancing a sort of lightness and suspension, thanks to the handle linearity.

AMIATA

Karol

Amiata è una collezione caratterizzata da un'anta con taglio a 45 gradi e da un vano tecnico ispezionabile sullo schienale del mobile che offre l'opportunità di collocare il lavabo nella posizione desiderata indipendentemente dagli scarichi.

Nella versione full-colour Amiata permette di scegliere la stessa nuance per mobile e lavabo, dando personalità e carattere allo spazio bagno.

Amiata is a collection characterized by a door with a 45-degree cut-out. It has an inspectable technical compartment on the back of the cabinet that offers the opportunity to place the washbasin in the desired position, regardless of drains position.

In the full-colour version, Amiata allows you to choose the same nuance for cabinet and washbasin, giving personality and character to the bathroom space.

MUTEVOLE

Karol

La peculiarità della collezione Mutevole risiede nella possibilità di personalizzare ciascun elemento della composizione e generare combinazioni flessibili. Mutevole nasce come soluzione a qualsiasi esigenza di spazio, di fruizione, di gusto, con l'idea che ogni bagno, grande o piccolo, debba poter essere arredato con stile. La reversibilità dei moduli e la scelta libera tra ante in essenza a vena verticale o orizzontale o laccate nei colori preferiti, consente soluzioni stilisticamente originali e uniche.

The uniqueness of Mutevole collection lies in the possibility of customising every element of the composition and create flexible combinations. Mutevole is the solution to any space and taste requirement and the proof that every bathroom, large or small, can be furnished with style.

Modules are reversible and you can choose between vertical or horizontal wood grain or lacquered doors in your favourite colours for original and unique solutions.
